MANAGEMENT DISCUSSION & ANALYSIS

The Management Discussion and Analysis as required under Regulation 34 of the SEBI (LODR) Regulations, 2015 is presented in a separate section forming part of the Annual Report.

Business Outlook

The company is presently engaged in agency business of synthetic fabrics. The Company has started trading of cloth in the export market and is trying to expand its business into export of fabrics and other related material where the company sees a lot of opportunities. The Company hopes to achieve good results in this line looking to the acceptance of Indian products in global market. Presently the company is doing trading and agency business of fabrics.

Opportunities and Threats

The opening of the international market has thrown a host of opportunities with unique set of challenges. The dismantling of quota system has given an added advantage and huge opportunity to India as compared to other countries including China. This is especially because viscose fiber is available in abundant quantity in India as compared to other countries. Thus, in India new designs can be introduced faster allowing Indian manufacturers to cater to the larger section of the people with a variety of color choices and designs which is not feasible for the Chinese manufacturers. This is one of the reasons that the Indian fabrics, particularly viscose suiting dominates the market as compared to the Chinese fabrics. India, therefore, has a massive edge compared to China in viscose polyester fabrics.
